Aquatemp Uriscle Eliminator

Aquatemp Uriscle Eliminator is the ultimate eco-friendly urinal descaling solution:

- Safe for use on all urinal surfaces, including porcelain, stainless steel and fibreglass
- The perfect solution to spray onto tile floors and stainless steel trays under urinals that are subject to urine splash-back, staining and bacterial odour
- An eco-friendly, biodegradable, naturally derived product that is safe to flow into drains
- Non-toxic, non-caustic and free from phosphates, chlorine and ammonium with no harsh fumes
- Effectively removes uric salts, calcium, dirt, soaps, scum, limescale, rust and mineral deposits from urinals naturally without the need for acid-based products.

Directions for Use:

- 1) Aquatemp Uriscle Eliminator is supplied as a ready-to-use product in spray bottles or refill containers.
- 2) Apply the solution to the urinal or floor surface using the foaming action spray bottle, ensuring complete surface coverage.
- 3) Allow the solution to sit for 5-10 minutes or until the scale and deposits have dissolved.
- 4) Scrub the urinal or floor surface gently with a non-abrasive brush or cloth.
- 5) If you spray a stainless steel floor tray with an internal grate, you can spray and go, providing at least once a day with the grate removed and the tray and grate are cleaned as above.
- 6) For heavily scaled urinals or floors, multiple applications may be necessary initially.

Storage and Handling:

- Store Aquatemp Uriscle Eliminator in a cool, dry place away from direct sunlight
- Keep out of reach of children
- Avoid contact with eyes and skin
- In case of eye contact, rinse immediately with water and seek medical advice
